## 10. Differentiation – Plant Families

### I. Anacardiaceae, Cactaceae, Cruciferae, Euphorbiaceae, Primulaceae

**Common Sensation: Tight, Stiff, Unable to Move**

ANACARDIACEAE	CACTACEAE	CRUCIFERAE	EUPHORBIACEAE	PRIMULACEAE
<p>Caught locally and unable to move. Change of position. Feeling of caught is from outside.</p> <p><i>Eg:</i> <i>Rhus tox</i>: "Desire to move" and "<i>Amel.</i> Change of position."</p>	<p>Tight is like constricted, clutched and shrunk by an iron hand and released alternately. Alternate contracting and expanding.</p> <p><i>Eg:</i> <i>Anhalonium</i>: "Everything is getting narrow and shrinking and I have to expand or I will disappear". This is the feeling of a spiritual seeker. "As an individual ego I am smaller and smaller and there is no "me" left; and out of that there is a spiritual expansion and I am everything."</p>	<p>Block and obstruction in a smooth flow. Unable to move and go forward. Want to get over the block or find diversions.</p> <p><i>Eg:</i> <i>Thlaspi</i>: "Impulse to walk for" and "Restlessness, driving him from place to place."</p>	<p>Bound and unbound. Bound means "to fasten or wrap by encircling, as with a belt or a ribbon; to bandage; to hold or restrain with or as if with bands."</p> <p>Feeling like a straight jacket that restricts, hinders and confines. Binding completely. Like a prisoner who is bound from all sides.</p> <p><i>Eg:</i> <i>Croton-tig</i>: "Sensation as if hidebound (tight). Tight, sort of like a mask"</p>	<p>Feeling of lameness and paralysis is from inside and thus an inability to move. As if the muscles are lame and paralyzed. Like solitary confinement, unlike the feeling of being in a prison or of being caught.</p> <p><i>Eg:</i> <i>Cyclamen</i>: "If I am not able to go out then I am prepared to stay inside for a long time."</p>

# 11. Minerals Understanding of Rows

Issues	Keywords
<p><b>1st Row:</b>  <b>Existence and birth:</b>            It has to do with conception.            It is a question of existence.            "Am I or am I not?"            "Do I exist or not?"</p>	<ul style="list-style-type: none"> <li>• Energy</li> <li>• Etheral</li> <li>• Like a baby without a body</li> <li>• Consciousness</li> <li>• Material form</li> <li>• Exist</li> <li>• Essence</li> </ul>
<p><b>2nd Row:</b>  <b>Separation:</b>            He is an entity.            "Am I a part of something or am I separate?"  <b>Lithium, Beryllium, Boron:</b> No separation and there is dependence. Insecure to have an independent existence.  <b>Carbon, Oxygen, Nitrogen:</b> The separation develops further.  <b>Fluorine:</b> "I must break this attachment and be completely separate."</p>	<ul style="list-style-type: none"> <li>• Separation</li> <li>• Motherly attention</li> <li>• Motherly warmth</li> <li>• Falling</li> <li>• Attached</li> <li>• Part of</li> <li>• Alone</li> <li>• Helpless</li> </ul>
<p><b>3rd Row:</b>  <b>Identity:</b>            Developing and asserting his choice.            Developing and expressing his ability to do things for himself.            Becoming conscious of the self and of other people's impression of him.            'I am separate, but who am I?'  <b>Sodium, Magnesium, Aluminum:</b> Identity has not developed completely and they are dependent for that.  <b>Silica:</b> Fixed identity.  <b>Phosphorus:</b> Has an own identity apart from what is being given.  <b>Sulphur:</b> Identity develops further to ego.  <b>Chlorine:</b> Completely opposite of the identity given.</p>	<ul style="list-style-type: none"> <li>• Identity</li> <li>• Who am I?</li> <li>• My choice</li> <li>• Image</li> <li>• Ego</li> <li>• Molding</li> <li>• Blending</li> <li>• Care / uncared</li> <li>• Unloved</li> <li>• Nurture</li> <li>• Nourishment</li> <li>• Forsaken</li> <li>• Alone</li> <li>• Margin</li> <li>• Blending in</li> </ul>
<p><b>4th Row:</b>  <b>Security and task:</b> "I know who I am but safety is not yet developed. I can't safeguard or defend myself."            In case of being alone, in poverty, or when attacked by people or animals, "I need shelter, home."            Security is in terms of money, relationships, house, job and health.  <b>Kali, Calcium:</b> Lacks the capacity to protect self and dependent for the same on others.  <b>No foundation.</b>  <b>Scandium, Titanium, Vanadium, Chromium:</b> Starts to develop the capacity to protect self.  <b>Foundation.</b>  <b>Manganum, Ferrum, Cobalt, Nicolum, Cuprum, Zincum:</b>            Has the capacity to protect self and needs to maintain the position.            Starts facing opposition.  <b>Foundation and Attack and defense.</b></p>	<ul style="list-style-type: none"> <li>• Security</li> <li>• Protection</li> <li>• Threat</li> <li>• Attack</li> <li>• Safety</li> <li>• Task</li> <li>• Job</li> <li>• Shelter</li> <li>• Home</li> <li>• Vulnerable</li> <li>• Robbers</li> <li>• Defense</li> <li>• Police</li> <li>• Crime</li> <li>• Force</li> <li>• Opposition</li> </ul>
