

FOREWORD

It is my pleasure to introduce yet another book "A Concise Textbook Of Gynaecology Including Homeopathic Therapeutics."

Author, Dr. Trupti M. Deorukhkar, B.H.M.S, M.D. (Hom) has considered almost all gynaecological conditions in her book for allopathic and homeopathic therapy.

Every faculty of medicine has some or other limitation in management of various health problems, she has rightly and correctly brought them out. This book has also considered amalgamations of both the faculties for managing a particular condition. Medical students should be definitely informed in this aspect, so that patients who are ultimate beneficiary will get the advantage of both the faculties of medicine.

I wish Dr. Trupti M. Deorukhkar a great success for percolating principles of scope and limitations of particular faculty to homeopathic medical students and ultimately to medical community at large.

Dr. V.G. Pisat

M.D., D.G.O., D.F.P., F.I.C.S., F.I.C.G.O.

Director Aakanksha Maternity and Surgical Hospital and
Aakanksha clinic of reproduction.

Ex Visiting Professor CMPH Medical College,
Vile Parle, Mumbai.
